Sixty percent of this role is making spend explain itself; forty is running the AI that does the explaining. I have shipped both: an attribution argument over a \$10M+ book, and a production multi-model stack with live data connections underneath it.

Experience

2024 to present
Denver, CO

Elio Intelligence Suite Founder & AI engineer, elioai.app

- Built and operate a production multi-model platform on GCP Cloud Run that routes Claude, GPT, Gemini, Grok, and Llama by task fit, with Vertex AI Search retrieval and live data connections.
- Shipped a Gemini-grounded SEM forecaster that ran **21** scenarios against **\$2.4M** of live pipeline, so the seller walked into the pitch with spend-to-stage math instead of a dashboard.
- Run scheduled agent workflows across **8-10** API keys and **3-4** GCP service accounts, and hold the on-call when a connection drifts. Operations, not prompting.
- Run JobBored's agent fleet in Claude Code against a user-owned Google Sheet.

2017 to 2026
Denver, CO

Audacy Digital Sales Manager, **\$10M+** digital book, 2021 to 2026

- Owned the **\$10M+** digital book and reallocated Google, Meta, OTT/CTV, and programmatic against marginal ROAS; Denver held a **top-3** national rank from a **#19**-sized market.
- Wrote the bidding and attribution framework used in QBRs (last-click vs. assisted, incrementality, channel-to-stage movement) and trained **10** AE desks to defend it.
- Drove **130%** YoY paid-search conversion growth and a **13%** new-user lift on a flagship financial-services account. The deliverable was the readout: what happened, why, and what we cut Monday.

2017 to 2021 **Senior KAM, KAM, Digital Campaign Manager.** Trafficked Google, Meta, and OTT campaigns, built the market's reporting dashboards, and became the digital SME account executives brought into client calls.

2015 to 2016
Denver, CO

Primary Residential Mortgage SEM & web programs

- Ran paid search and WordPress site programs for loan-officer demand generation.
