

Emilio Nunez-Garcia

AI & MARKETING ANALYTICS MANAGER

Denver, CO · 501.366.2080 · emilio3435@gmail.com · emiliobuilds.com · linkedin.com/in/emiliobuilds

I build the measurement and AI operating layer that turns channel noise into weekly decision memos. *I already run that stack: live model routing, grounded forecasts, and the readouts a seller carries into the room.*

EXPERIENCE

Elio Intelligence Suite — *elioai.app*

2024 — present

Founder & AI engineer · Denver

- Production multi-model platform on GCP Cloud Run (Claude, GPT, Gemini, Grok, Llama) with task-fit routing, Vertex AI Search RAG, and live data connections — the same shape as an in-house Claude skills graph.
- Shipped a Gemini-grounded SEM forecast that ran 21 scenarios against \$2.4M of real pipeline so a seller walked into a pitch with spend-to-stage math, not a dashboard dump.
- Scheduled agent workflows across 8–10 API keys and 3–4 GCP service accounts. I write them, deploy them, and babysit them. Prompting-only this is not.

Audacity (formerly Entercom)

2021 — 2026

Digital Sales Manager · Denver · \$10M+ digital book

- Owned the book and the attribution argument behind it. Reallocated Google, Meta, OTT/CTV, and programmatic toward marginal ROAS; Denver held a top-3 national rank from a #19-sized market.
- Built the bidding and attribution framework used in QBRs — last-click vs. assisted, incrementality, which channel actually moved pipeline — then trained 10 AE desks to defend it in the room.
- 130% YoY paid-search conversion growth and 13% new-user lift on a flagship financial-services account. The readout was the product: what happened, why, what we cut.

EARLIER

Senior KAM / KAM / Digital Campaign Manager, Audacity, 2017–2021 — hands-on Google, Meta, and OTT trafficking, market dashboards, then the digital SME sitting with AEs. SEM and WordPress programs, Primary Residential Mortgage, 2015–2016.
